Dear Michael,

just a quick note to say how much the students and I enjoyed today's trail. We all learned a lot, which was down to your assured, yet easy-going, style of delivery. We are all looking very much forward to our next day out and hope that we can learn as much then as we did today. This project is doing great work in alerting students and teachers alike to our rich and varied heritage, and I can only hope that this will continue in the future. Thank you once again Michael for an enjoyable and educational day.

Yours Sincerely,

Tara McGovern
