

Cavan Fermanagh project school partnership
Kilnaleck National
School and Cornagague P.S.

It was a cold day but we weren't outside much. First of all when we went in and we ate our break with Kilnaleck and sorted out teams. My team went to Maura first and painted pictures on china tiles. We had to paint on china tiles with paint that wouldn't dry in 100 years! I painted the school on the tiles along with Holly. There was also a thing that rubbed out PAINT when you made a mistake! We then went on a tour of the museum and at 12:30pm we ate our lunch.

A while after that, we dressed up, had a feast and learned how medieval people ate their meals together. We ate pork pies some bread, cheese and a piece of apple. My favourite part was the feast because we got to dress up and eat. I would give this place 10 out of 10 because all the activities were great.

The tour was good fun because you got to see things that were 200-4000 years old! There were things like a rock with spirals, a boat made out of a tree and a grave found in a farmyard!

All the things here were great and I wish I could come here again because it was absolutely brilliant.
