

DANGER OF FLOODS!

Cara Johnston St.Ronans Lisnaskea

At the moment there are about 120 floods across the UK, (DESTROYING) homes and shops. In Northampton where hundreds of people are being

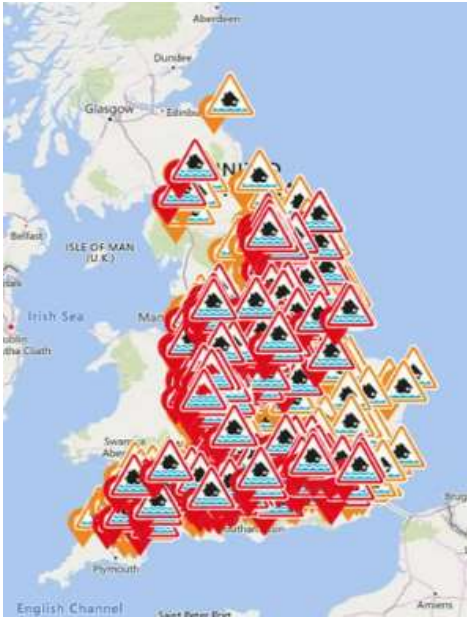

evacuated from the Billing

Aquadrome Hoilday park.The water is rising rapidly and very swift across areas that are near water.

Some people think that the water won't hammer the area that there in, but be careful DON'T let children,dogs,yourself and others outside because the water will probably come your direction.

The floods are mainly around South West,East of England and Wales.

In the Western of England and Wales there're is about 500,000 people with no electricity, and in Wales there're is about 44,500 people with no electricity.
